Compliance Scorecard

CYBER INSURANCE READINESS · TRACKED IN COMPLIANCE SCORECARD

Can you answer your cyber insurance questionnaire honestly?

Carriers now ask detailed security questions, and a wrong answer can put a claim at risk. Pinnacle helps you put the controls in place, answer truthfully and keep the evidence.

What carriers commonly ask about

MFA
Email, remote access and admin accounts

EDR
Endpoint detection and response

Backups
Offline or immutable, and tested

Patching
Operating systems and firmware

Training
Phishing awareness for staff

Email security
Filtering and DMARC

Admin access
Separate privileged accounts

Response plan
A written incident response plan

How Pinnacle helps

- **We walk the questionnaire** with you before renewal.
- **Documented evidence** ready for your carrier.
- **Incident response plan** written and tested.
- **Gaps closed** with tools we already manage.
- **Controls tracked** in Compliance Scorecard.
- **A renewal-ready report** every year.

The controls behind the answers

Professional services

- Questionnaire review before renewal
- Gap assessment with a prioritized plan
- Incident response plan and tabletop exercise
- Security policies and a WISP

Products we manage

- Huntress EDR, identity protection and 24x7 SOC
- Immutable backup with tested restores
- Microsoft 365 MFA and email security
- VulScan and Vonahi scans and pen tests
