Pinnacle Computer Services
SOLUTIONS FOR BUSINESS

Microsoft 365

MICROSOFT 365 SECURITY AND BACKUP · MICROSOFT CLOUD SOLUTION PROVIDER

Your Microsoft 365 data is your responsibility.

Microsoft keeps the service running. Protecting your accounts, mail and files is up to you. Pinnacle secures your tenant, backs it up and keeps your licensing right.

Where tenants get hurt

Stolen passwords
No MFA, or old sign-in methods left open

Mailbox rules
Attackers quietly forward invoices

Deleted data
Past retention, it is gone

Wrong licenses
Paying for features nobody uses

Pinnacle services for your tenant

24x7 scanning
The Huntress SOC monitors sign-ins, mailbox rules and threats around the clock

Help desk support
Our Evansville help desk handles Outlook, Teams, OneDrive and user issues

Tenant backup
Daily backup of Exchange, OneDrive, SharePoint and Teams with tested restores

What Pinnacle sets up

- **MFA and conditional access** for every user.
- **Email filtering** plus SPF, DKIM and DMARC.
- **Retention and sharing policies** set to your needs.
- **Legacy sign-in methods** turned off.
- **Secure Score** tracked and improved.
- **Licensing reviewed** and billed through Pinnacle.

How we get you there

1 Review
Secure Score, sign-in risks and a license audit.

2 Secure
MFA, conditional access and email protection.

3 Back up
Independent backup with tested restores.

4 Manage
New hires, departures and changes handled for you.
