DELL POWEREDGE SERVER REFRESH

Replace your server before it fails.

New Dell PowerEdge, sized to what you actually run, configured before it ships and installed by the Evansville team that supports it afterward.

Signs it is time

- ☑ **Windows Server 2016 or older.** Extended support ends January 12, 2027.
- ☑ **Five years old, or off warranty.** Parts and repair get slower and costlier.
- ☑ **A VMware renewal coming due.** New hardware is the time to move to Hyper-V.
- ☑ **Slow, full or single point of failure.** One box carrying the whole office.

The right PowerEdge for the job

T560 tower
For offices without a rack. Quiet and expandable.

R670 rack, 1U
Two processors in one rack unit. The workhorse Hyper-V host.

R770 rack, 2U
Room for more drives, memory and expansion as you grow.

Pinnacle handles all of it

1 Assess
We inventory what you run and size to it.

2 Configure
Firmware, iDRAC and storage set to our standard.

3 Migrate
After hours, old server kept until proven.

4 Manage
Monitored, patched and warranty tracked.
